“Let’s live without regrets.”

Education

Sungkyunkwan University

Department of Electrical and Electronic Engineering

Suwon, S.Korea

Mar. 2024 –

Busan Science High School

Mar. 2021 – Feb. 2024

Busan, S.Korea

Project Experience

Curved Surface Reflection & Diffraction Research

Busan Science High School, Grade 2

Busan, S.Korea

Sep. 2022 – Feb. 2023

· Awarded **Grand Prize** at the 18th Busan Future Scientist Award (High School Paper Division)

A Study on the Landslide Prevention Program

Busan Science High School, Grade 2

Busan, S.Korea

Sep. 2023 – Feb. 2024

· Derivation of natural disaster prediction function formula and creation of natural disaster warning program from mountainous area meteorological data

Counting vertices in Gelfand—Zeitlin polytopes of type C

Busan Science High School, Grade 2

Busan, S.Korea

Mar. 2021 – Feb. 2022

· Awarded **Grand Prize** at the R&E presentation

A Study on the Replacement of Optimized Smoking Areas on Campus

Sungkyunkwan University, UnderGraduate

Suwon, S.Korea

Mar. 2025 – Aug. 2025

· Using the NSGA-2 technique, search for the location with the least damage score caused by smoking areas

Implementation of Turtle neck self-diagnosis model and prototype production

Sungkyunkwan University, UnderGraduate

Suwon, S.Korea

Aug. 2025 – Nov. 2025

Real-time diagnosis of turtle neck using Python and prototyping with 3D modeling
